Terms Of Sale

1. A 15% buyers charge will be added to the hammer price of each lot purchased; eBay bidders pay 20%.

2. All bids should be per lot as numbered in this catalogue.

3. Mail Bids should be submitted at least 3 business days prior to the auction session for inclusion.

4. The placing of a bid shall constitute full acceptance of the foregoing Terms of Sale; all bid sheets must be signed by the responsible party. The placing of Live and or Mail bids constitutes a binding contract with SMYTHE. All bids are considered confidential.

5. Phone bidders should contact SMYTHE at least a week prior to the date of sale; phone bids will only be accepted on lots estimated at $500 and up.

6. Bids less than 60% of the low estimate will not be accepted.

7. SMYTHE reserves the right to withdraw any lot prior to or during the sale.

8. Invoices will be mailed within 7 business days of the conclusion of an auction session.

9. All successful bidders shall be billed for postage, handling and insurance. All lots (with the exception of bulky or oversized items) will be shipped by SMYTHE at the purchaser's expense.

10. In the case of a tie between a mail bidder on the book, a bidder on the floor, and an eBay bidder, the mail bidder shall take precedence.

11. Payment for purchases can be made by cash, check, money order or bank wire upon receipt of invoice. eBay bidders may use Paypal to pay their invoices. No lots may be taken away unless paid for in full. A late charge of 1-1/2% per month will be charged on the invoice total if payment is not received within 10 days of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance. Credit cards will not be accepted for auction purchases. A storage fee of $10 per day will apply if lots are not picked up or shipped within 30 days of the conclusion of the auction.

12. A $100 charge will be applied for any check that fails to clear.

13. New York State sales taxes or other state sales or use taxes shall be levied as required by law. Dealers and other non-residents are reminded that sales tax must be collected unless Form ST-120.1 has been filed properly, under state regulations.

14. Lots will be shipped within 10 business days after payment is received. Lot pick up is available but you must call one day in advance. To receive tracking information include your email address on your bid sheet.

15. Check your bid sheets and online submissions carefully. SMYTHE cannot assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your bid sheet is signed. In addition, SMYTHE has no jurisdiction over bids placed with eBay.

16. Prices Realized for each auction are posted within 72 hours on our website, www.smytheonline.com

17. Prices realized may be higher or lower than published estimates depending on wholesale and retail market conditions at the time of the auction. Where non-published reserves exist, the auctioneer may make bids in response to others. SMYTHE reserves the right to include its own material in its auctions, as well as to bid on any item in its sales. SMYTHE has advanced money (where requested) to consignors and in addition has agreed to extend credit to purchasers who have made arrangements prior to the sale. SMYTHE has the right to charge interest on all loans and advances.

18. SMYTHE cannot be responsible for the loss of any merchandise shipped outside the United States.

19. All framed and over sized items are shipped at the purchaser's risk.

20. SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at SMYTHE'S sole discretion.

21. A SMYTHE auction bidder expressly waives any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet or completed the online registration process.

22. United States coins and currency will not, in conformity with law, be opened at less than face value.

23. No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.

24. All bids must be in whole dollar amounts; this includes percentage increases.

25. No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.

26. Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.

27. If a collection agency or attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE in procuring judgment shall be borne by the defendant.

28. The signer of a SMYTHE bid sheet or participant in the auction consents to the exclusive jurisdiction and venue of the state and Federal courts of New York, New York and agrees that these Terms of Sale shall be governed by and construed in accordance with the laws of the State of New York, without giving regard to the principles of conflicts of law. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.

29. SMYTHE may reopen the bidding on a lot under the following circumstances: a) SMYTHE has failed to execute correctly a mail bid. b) A party purchasing the lot on the floor has done so in error. c) Where a protest is made after the hammer has fallen but before bidding has commenced on the next lot. d) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. e) At the discretion of the auctioneer.

30. In the event of dispute, the auctioneer's decision is final.

31. No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

32. In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.

33. The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.

34. SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

35. All accounts are payable to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice.

36. All material in this catalogue is unconditionally guaranteed to be genuine. We will not knowingly sell any item that has been "repaired", "restored", "processed", "cleaned", "pressed", or "conserved" in any way without disclosing those facts to the potential buyer.

37. Agents who bid from the floor for clients should examine the lots carefully, and are reminded that no lots may be returned by floor bidders except for non-authenticity. Lots described as "repaired", "corroded", "holed", "whizzed", or like damage may not be returned for any reason except non-authenticity.

38. In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale,) notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.

39. Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Third-party graded coins (i.e. PCGS, NGC, ANACS, ICG) are sold as is, no returns. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it. Lots sold with the proviso 'sold as is' cannot be returned. Lots valued primarily for their bullion content may not be returned.

40. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No prospective bidder or prospective buyer shall have recourse as a result of any postponement.

eBay Bidder FAQ

How can I see a better image of this lot?
Or get a scan of a piece that is imaged?
We generally image every lot that we are selling. Please see our eBay listings at www.ebayliveauctions.com. For questions about a particular lot please call the Information Desk at 800-622-1880.

Why didn't my tie-bid win this lot?
Smythe awards tie bids to bidders who send in mail bids in advance of the sale.

How I can save 5% by bidding through the Smythe web-site?
Visit the Smythe website at www.smytheonline.com and click on "Current Auctions"; this will enable you to place bids in advance of the sale through our secure bidding site. This is not the same as real time bidding through eBay live, it is a Smythe run website and thus you will not have to pay the eBay surcharge.

Why should I trust Smythe?
Smythe has been in business for over 125 Years, and has a sterling reputation in the numismatic auction field. We have conducted hundreds of auctions and have represented institutions, museums and governments. For Testimonials from Smythe clients see the "Testimonials" page on our website at www.smytheonline.com.

How does an eBay Live Auction differ from an eBay Auction?
eBay live is conducted in real time, and requires participants to register in advance of bidding.

How can I receive notice of upcoming Smythe sales?
All future Smythe auctions are posted on our website, www.smytheonline.com. To be added to our email contact list please send a brief message to info@smytheonline.com.

How can I be added to Smythe's mailing list?
Please send an email with your name, address, and phone number to: info@smytheonline.com.

How can I determine the current bid for a lot?
Smythe does not offer this information since that data is constantly changing. Starting bids are given when lots are opened by the auctioneer.

Help! I mis-bid on an item via eBay!
Unfortunately, we have no control over bids placed through eBay.

Can you tell me what I bid on an eBay lot?
No, we do not have access to any information entered on eBay's site until the auction is being conducted.

I want to bid on two items, but I only want to win one.
In this scenario it is better to place bids directly with Smythe, as we will handle this type of bidding with the utmost care. Please call us at 800-622-1880 to place an "either-or" bid.

What about placing a "limit" bid?
If you have a budget for your auction spending you can submit a bidsheet with a "limit" amount. We will bid on your behalf up to that amount. Please list your bids in priority order. The buyer's premium will be added to the total spent on merchandise.

How do I pay for my merchandise?
You will be invoiced shortly after the conclusion of the auction. Smythe accepts personal checks, money orders and Paypal payments for those who bid through eBay Live. Bank Wires can be sent after contacting the Accounting department at 800-622-1880.

Will I be charged Sales Tax?
Sales Tax will be added to invoices of New York State residents who do not provide a valid resale certificate. To submit a Resale Certificate please fax a copy of the original document to the Accounting Department at 212-312-6300.

How is the shipping and insurance amount calculated?
Our software takes into account the size and shape of the item, the cost of the postage, and the value for insurance purposes. Packages are well insulated against weather and transportation rigors. If you experience any problem with your shipment please call us immediately at 800-622-1880.

Where can I see Prices Realized for the entire sale?
Prices Realized for each sale are posted on Smythe's website at www.smytheonline.com.

TERMINOLOGY

For Currency

GEM UNC. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

CHOICE UNC. (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

UNC. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.

CHOICE AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.

GOOD - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

FAIR - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

POOR - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

CONDITIONAL PHRASES

ABT (before a grade) - A shade below the grade it precedes.

PLUS OR + (following a grade) - A shade better than the grade.

VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.

VF/GOOD (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

SMYTHE "PAPER MONEY GUARANTEE"

We will not knowingly sell any item that has been "repaired", "restored", "processed", "cleaned", "pressed", or "conserved" in any way without disclosing those facts to the potential buyer

Unique 'Postally Used' Five Cent Fractional Currency Note

1619 **5 Cents. Fr. 1230.** Jefferson. **VF.** Used as Postage, On a 1901 Dated Cover. Truly one of the greatest Fractional Currency related items to have ever been offered for sale. It is one thing to collect a Postage Currency note, it is by far another to see one used and accepted as United States Postage! Not only that, it is Postally Stamped with an 'oval bar' design Postal cancel, placed onto the mailing envelope in 1901. The note is Postmarked both at the left, as usual and on the center of the 5 cent Fractional note itself. At the right reading, 'New York, September 20, 9 P.M. 1901'. This item hails from two important prior named Fractional Currency Sales, first sold in January 1997, Lot #96, and subsequently residing in the great Tom O'Mara Collection, Lot #15593. In our opinion, this was one of the most interesting pieces in those historic sales. A real and highly important showpiece for any advanced collection of Postage Currency. **Absolutely Unique!** **($3,000-4,000)**

Pinholes. 4) **Fr. 1261.** Fourth Issue. **EF-AU,** Nicely centered, crisp original note. A couple light vertical folds. [4] **($75-100)**

Lovely Gray Background Fractional Currency Shield

1622 **U.S. Fractional Currency Shield, Gray Background.** In a contemporary frame with gilt interior border. The slats on the back bear the original advertising labels of the framer. "Fine Pictures & Frames of All Kinds From Bradley's / Liberty Street" can still be discerned. Re-glazed with plexiglass to protect against ultraviolet rays and breakeage. Impression Size: 50cm x 60cm. No hard folds are apparent, although there are some typical age toning spots on the gray background and on the gold frame. Most of the notes are brighter than average, but the 2nd Issue 10 Cent back has turned from purple to blue, and the autographed pieces show a bit of ink erosion. Still, this is an excellent example of this classic display item, and the impressive contemporary frame adds greatly to the overall eye appeal.

Silver Certificates

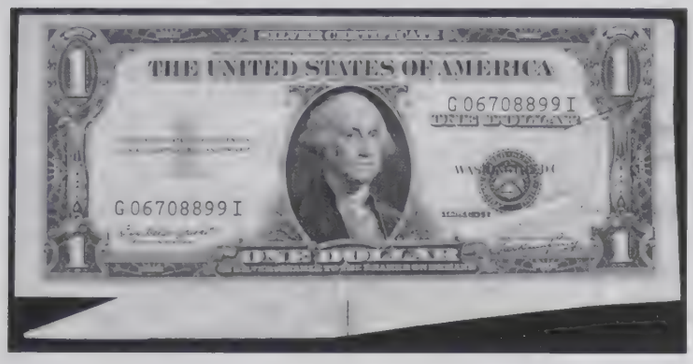
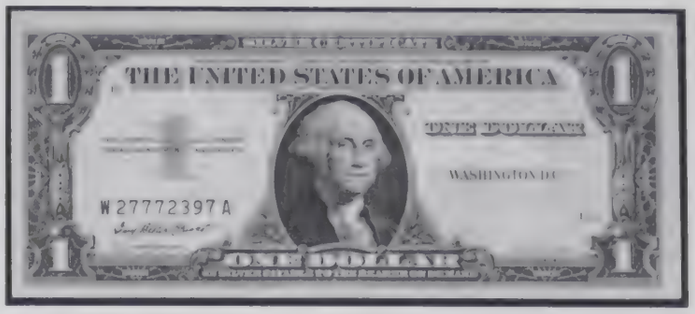
1825 **Fold Over Errors on Two Early Silver Certificates.** 1) $1. **SC. 1935A.** Z42984079C. Before the 2nd printing, the bottom left corner developed a fold. When it is opened, a 1" x 1 1/2" butterfly appears on the front. The back of the butterfly shows a portion of the front left corner printed over a registration mark. **Fine or so,** with some light stains. 2) **$1. SC. 1935E.** No.D09103660H. A small double fold in the upper right corner resulted in a triangular void on front, and a small portion of the front on the back upper left corner. **F-VF.** [2] **($125-250)**



1826 **Fold Over and Misprinted Overprint Error on This Silver Certificate. $1. SC. 1935E.** No.G06708899I. A 1/2" wide spike-shaped piece of paper extends down and to the left from the bottom border. The registration marks on both front and back tell us this was one of the bottom notes on the sheet. The small fragment of the blue Treasury seal above the right signature proves this fold over occurred after the second printing. A scarce and unusual error. **VF-EF.** **($150-300)**

1827 **Obstructed Printing on This Silver Certificate Error. $1. SC. 1935E.** No.D76796212H. The front printing is shifted up and to the right, leaving a broad left margin, and wider than normal bottom margin. On the back, the corner of another sheet got between this note and the press, resulting in a 1/2" x 1" printing void. **AU.** **($50-100)**

1828 **Gutter Fold Error on This Silver Certificate.** 1) **$1. SC. 1935E.** No.A23991259H. A spectacular gutter fold extends across the face of the note from the upper left corner, horizontally splitting the right serial number practically in half. **VG-F.** 2) **$1. SC. 1935E.** No.Y89963763H. A wide gutter fold extends from top to bottom near the right side. **F-VF.** [2] **($75-150)**



1829 **Date, Treasury Seal, Secretary's Signature, and the Right Serial Number are Missing on This Silver Certificate Error. $1. SC.** No.W27772397A. A portion of another sheet, or some other obstruction covered the right side of the note after the 2nd printing. **EF.** **($100-150)**

1830 **Mismatched 2nd Position Serial Numbers on This Silver Certificate. $1. SC. 1957.** Mismatched serial numbers G55444124A-G54444124A. **EF.** **($50-75)**

1831 **Silver Certificate With Gutter Folds. $5. SC. 1953.** Two diagonal gutter folds cut across the left end of this attractive Silver Certificate. **EF.** **($50-75)**

1832 **Printing Obstruction Error on This Silver Certificate. $5. SC. 1953.** No.B38337604A. An obstruction came between this note and the printing press, causing the blue Treasury Seal, and most of the right serial numbers to be missing. **VF.** **($75-150)**

1833 **Misalignment Errors on These Silver Certificates.** 1) **$1. 1935E.** No.X91123890G. The entire 3rd printing is shifted upwards. There is a mounting trace on the front near the lower right side. **AU.** 2) **$20. 1996.** No.AA89789199A. Both sides misaligned downward about 3cm. **Choice Uncirculated.** [2] **($50-100)**

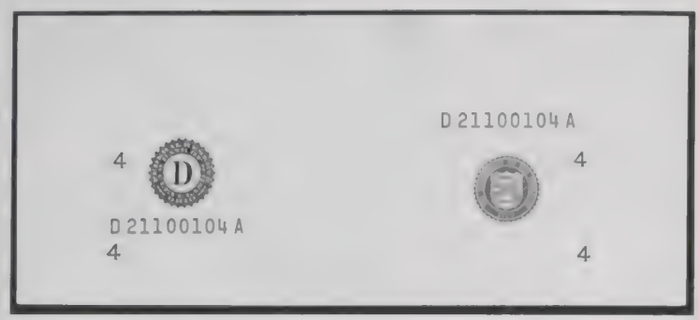
Federal Reserve Notes

The Overprints are The Only Elements Printed on a Sheet of Plain Paper!



1834 **Both the Face and Back Printings Are Missing on This Amazing Federal Reserve Note Error.** No.D21100104A. Only the green Treasury seal, green serial number, and the black district seal and numbers appear on this highly unusual error note.

While the paper is the exact size of a regular note, and has a bit of a greenish yellow caste, it is much whiter than regular Federal Reserve Note paper, and has no fibers of any kind.

The exact origin of the paper is unclear, but the impressions are bold and accurate, and the embossing is deep, leaving absolutely no doubt that the printing was done at the BEP.

The odds against a note like this eluding the inspectors are astronomical, making it a rarity of the highest magnitude. **Choice Uncirculated.** **($2,000-4,000)**

1835 **The Face Printing is Not Present on this Error Note. $1. FRN.** No.B71747791Q. The entire face printing is missing, but the seals and serial numbers are there. **Fine.** **($100-150)**

1836 **A Group of Five Misalignment Errors on FRNs.** 1) **$1. FRN. 1969.** No.G18665013C. Both sides shifted down 3-4mm. **Gem Uncirculated.** 2) **$1. FRN. 1969D.** No.C98539957B. The 3rd printing is shifted downwards so that the serial numbers are printed directly over the signatures. **VF.** 3) **$1. FRN. 1981.** No.A60143177B. The 3rd printing is shifted right. The District seal almost touches the frame surrounding Washington's portrait. **AU.** 4) **$1. FRN. 1993.** No.E21468283C. The 3rd printing is shifted downwards so that the serial numbers are printed directly over the signatures. **EF-AU.** 5) **$10. FRN. 1950A.** No.C87138201A. The back is shifted upwards about 15mm. About Fine, with a number wtitten in pen to the left of the portrait. [5] **($150-300)**

1837 **A Large Group of Partial Offsets on FRNs.** 1) **$1. FRN. 1969.** No.G26644430C. About 1/3 of the back is offset on to the front. **F-VF.** 2) **$1. FRN. 1977A.** No.D26036254C. A third of the back is offset on to the front. **EF-AU.** 3) **$1. FRN. 1988A.** No.B19745726H. About 25% of the back is offset on to the front. **VF-EF.** 4) **$1. FRN. 1993.** No.E64023957D. About 25% of the back is offset on to the front. **EF-AU.** 5) **$10. FRN. 1969B.** No.L86405696A. About 1/3 of the back is offset on to the front. **VF-EF.** 6) **$10. FRN. 1988A.** No.H32205792A. About 25% of the back is offset on to the front. **EF-AU.** 7) **$20. FRN. 1977.** No.B91750349C. About 20% of the back is offset on to the front. **AU.** [7] **($150-250)**

1838 **Misalignment Errors On FRNs, Mostly.** 1) **$1. FRN. 1969B.** No.A71548899A. The front is shifted to the right a bit. Red crayon mark, and a tape remnant. **VG-F.** 2) **$1. FRN. 1985.** No.E29461054L. Miscut. The note appears to be shifted to the right. **VF-EF.** 3) **$20. FRN. 1969.** No.C02273502A. The overprints are shifted up and to the right. **EF.** 4) **$20. FRN. 1985.** No.B07742624D. The front is shifted down about 1/2." Red inspector's crayon mark is at lower left **EF.** [4] **($100-200)**

Extra Print And Inking Errors Grouping

1839 **A Grouping of Ink Smear Errors and Partial Offset Errors on FRNs.** 1) **$1. FRN. 1969B.** Dark black 1/2" ink smear from top to bottom on the right end. **Choice Uncirculated.** 2) **$2. FRN. 1976.** Dark ink smear just to the left of Jefferson. Much scarcer on this denomination. **Choice Uncirculated.** 3) **$20. FRN. 1999.** Black ink smear in the upper left corner. **EF.** 4) **$1. FRN. 1995.** about 10% of the top of the back is offset on to the front. The offset is 'pixelated', probably because it is an impression off of the fiberboard backing of the pressure roller. **VF.** 5) **$10. FRN. 1981.** A little over 25% of the back is printed on the left end of the front of this note. **Choice AU.** 6) **$20. FRN. 1977.** 30% of the back is printed on the right end of the front of this note. **Uncirculated.** 7) **$20. FRN. 1977.** 15% of the back is printed on the left end of the front of this note. **EF-AU.** 8) **$20. FRN. 1977.** Similar to the previous note, and consecutive to it. [8] **($175-300)**

1840 **Neat Fold Over Error. $1. FRN. 1969D.** No.J95133619A. A beautiful single fold over error. The upper right 25% of the note was folded forward and downward after the 2nd printing. As a result, there is no green Treasury seal, no serial numbers, and no district numbers on the right side. Most of the green Treasury Seal, rotated 90%, is on the back. **AU.** **($250-500)**

1841 **No Overprints on this Error Note. $1. FRN. 1969D.** No.B95628969D. The district seal and district numbers are missing. This was either caused by underinking, or by two sheets sticking together during the black overprinting process. **VF.** **($50-100)**

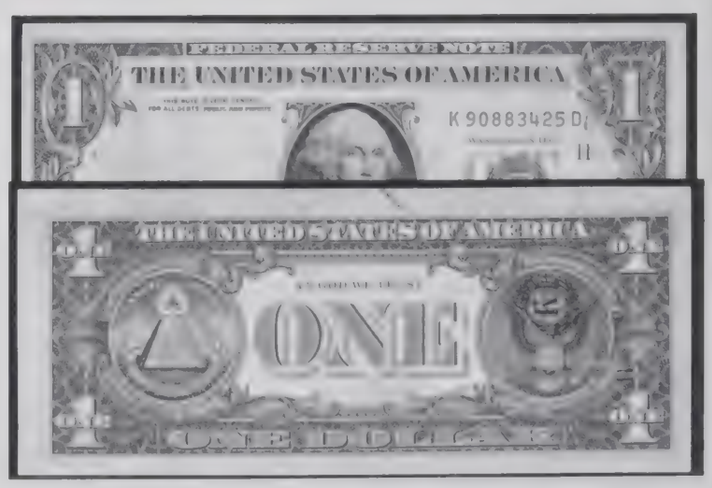
1842 **Blank Back on This 1974 $1 FRN 1974.** No.B69493466E. The entire first printing is missing. **VF.** **($75-150)**

Extra Print Errors

1843 **$1. FRN. 1977.** No.G66562932D. One of the sharpest front on back offsets you will ever see. 'Dark' doesn't begin to describe it. The front impression, offset on to the back, looks as bold and sharp as if it was printed directly. The fact that Washington faces left, instead of right, and the reversed lettering at the top proves it is a dramatic offset. Note the white printing void in the lower left corner on the back, where that small portion of the 2nd printing got on to the sheet that caused the offset to happen in the first place. The entire note is also shifted to the right. **Uncirculated.** **($150-300)**

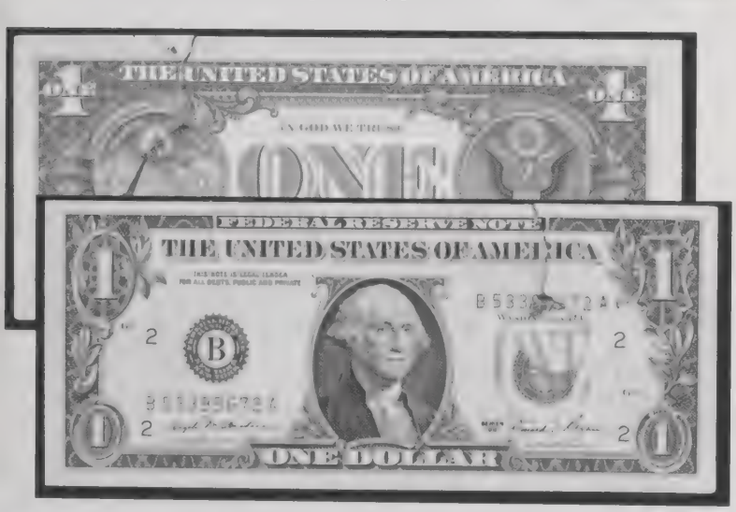
1844 **25% of the Back Printing is Missing on this Consecutive Run of Nine $1 1977A FRNs. Nos.B96488685L-93L.** This was due to insufficient inking of the plate. Two are **EF,** and the others are all **Uncirculated.FRN.** [9] **($750-1,500)**

1845 **Five Impressive FRNs With Gutter Folds.** 1) **$1. 1974.** No.C47245880B. 2) **$1. 1977A.** No.B49205603J. 3) **$5. 1985.** No.H39606298A. 4) **$10. 1950A.** No.L21464958B. 5) **$20. 1969.** No.A12000431A. [8] **($100-150)**



1846 **A Very Sharp Fold Over Error. $1. FRN. 1977A.** No.K90883425D. The upper left 25% of the note was folded forward and downward before the 3rd printing.The black district seal, the district numbers, and the serial number on the left side are missing. One district number, a large portion of the district seal, and a complete serial number are on the back, near the right end, and rotated 90 degrees so that the serial number appears to be vertical. **Choice Uncirculated.** **($200-400)**

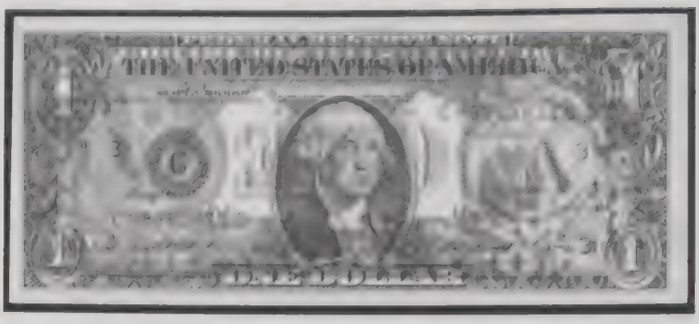
1847 **Five Consecutive 1977A FRNs With the Seals & Serial Numbers on the Backs. $1.1977A. San Francisco. FRNs.** Nos.L37317220-24I. All with seals and serial numbers overprinted on the back. There are traces of the fronts offset on to the backs as well. A rarely seen consecutive run of this error that occurs when several sheets have been pulled for inspection, then put back wrong side up into the pile waiting to be fed into the overprinting press. [5] **($1,500-3,000)**



1848 **Wonderful Misprinted Overprint Error. $1. FRN. 1981.** No.B53395672A. An extraordinary tear and fold over error that resulted in printing part of the green Treasury seal on the back near the top of the pyramid! Two portions of the green seal appear on the front, one covering part of the right serial number.

Something caused a small triangular wedge of paper near the right serial number to tear, and fold forward. The tip of this wedge folded back enough to receive the impression of the top of the Treasury seal. Note that there is a tear running from the top right margin down to the lower right district seal.

One of the most dramatic misprinted overprint errors you will ever see. **EF-AU.** **($250-500)**

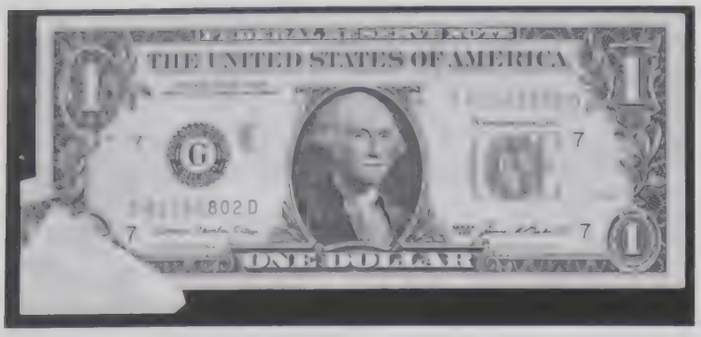


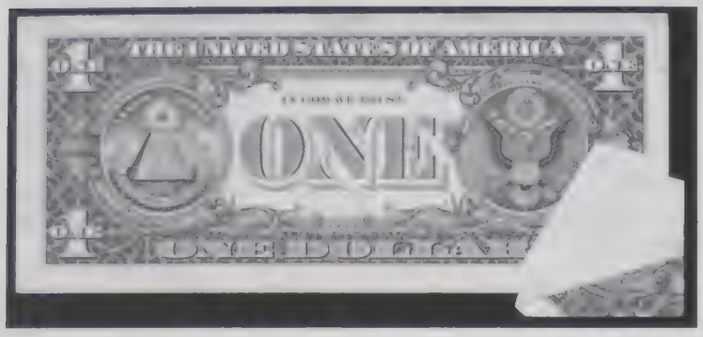
1849 **Dark, 'Pixelated' Offset Error. $1. FRN. 1981.** No.C48743813C. The back is offset on to the front. While the image is very dark green, it is not sharp, and seems to be composed of small pixels. This error occurred when the smooth rubber coating on the pressure roller wore off, or broke off, and the offset was printed from the fiber board that was under the smooth rubber surface of the pressure roller. **Choice Uncirculated.** **($200-400)**

1850 **Only the Last Digit of the Green Serial Numbers Show on This Error Note. $1. FRN. 1981.** The only portion of the green overprint that shows are the numerals '3' at the end of the serial numbers. The entire green Federal Reserve seal is missing. This error is due to insufficient inking, and is rarely encountered with just one digit showing. **Choice Uncirculated.** **($150-300)**

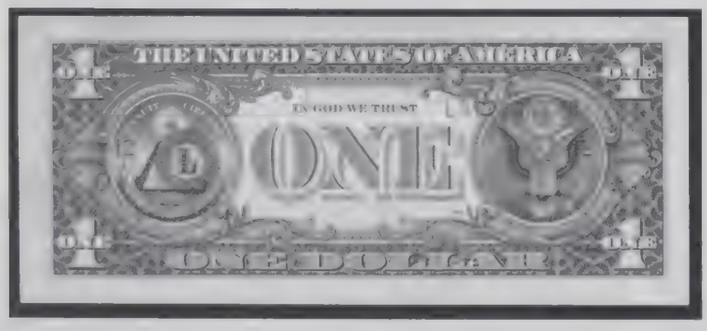
A Spectacular Double Fold Over Error

1851 **One of the Most Striking Fold Over Errors You Will Ever See. $1. FRN. 1981A.** No.A29972507B. From the front, it looks as if a large arrow, consisting of portions of the back of the note, is pointing down and to the left. from the back, a large area of white, near the right end, looks like an irregular butterfly. The first, and largest fold, occurred before the back was printed. The second, smaller fold happened before the sheet was cut. One of the most striking errors you will ever see! **EF.** **($750-1,500)**



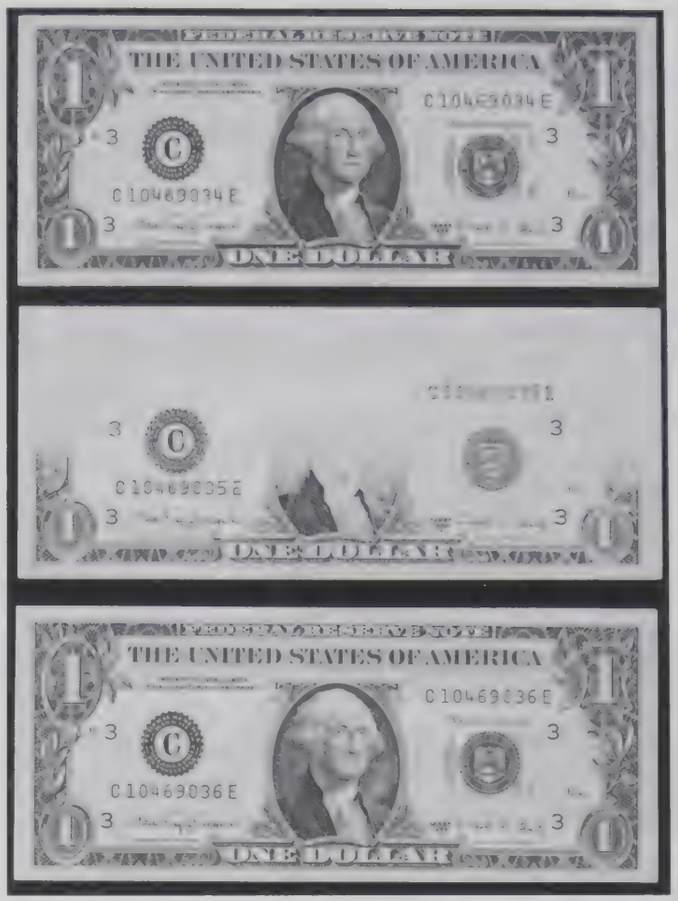


1852 Dramatic "Butterfly and More" Error. $1. FRN. 1985. No.G81162802D. A double fold over in the lower left corner produced a butterfly in the lower left corner when viewed from the front, and another butterfly in the lower right corner when viewed from the back. Both butterflies have extra portions of paper with parts of the back printing attached. There is a light stain on the front to the left of Washington. **VF-EF.** **($150-300)**



1853 Seals and Serial Numbers On the Back. $1. FRN. 1988A. No.L42758574C. With seals and serial numbers overprinted on the back. **Choice Uncirculated.** **($200-300)**

1854 Seals and Serial Numbers On the Back. $1. FRN. 1988A. No.F33186463J. With seals and serial numbers overprinted on the back. Bent corner tips. **Choice AU.** **($100-150)**



1855 Underinking Inking on a $1 1988A FRN, With the Preceding and Following Consecutively Numbered Notes. All Choice CU. 1) **$1. FRN. 1988A.** No.C10469035E. 2) **$1. FRN. 1988A.** No.C10469036E. 3) **$1. FRN. 1988A.** No.C10469034E. [3] **($150-300)**

In this case, 50% of the face printing is missing on the second note in this group. The others are printed normally.

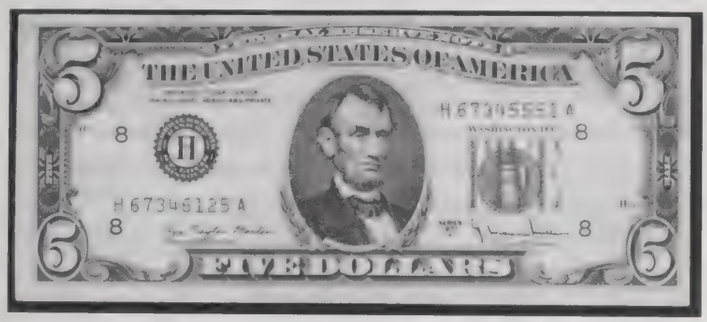
Misaligned Overprints

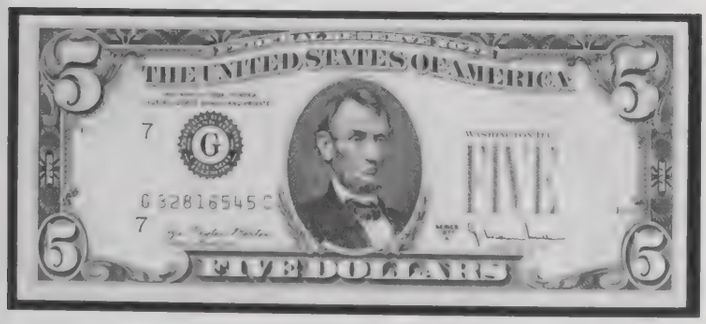
1856 **$1. FRN. 1988A.** No.B11864387E. The black portion of the overprint is shifted all the way down, placing the district seal directly on top of the left serial number. **EF-AU.** **($50-75)**

1857 **Butterfly Error Group.** 1) **$1. 1999.** No.A68091603E. Small butterfly in the upper right corner. **VF.** 2) **$5. 1985.** No.L97193738D. Long butterfly in the lower left corner. **Fine.** [2] **($50-100)**

1858 **Double Fold Over Error. $5. FRN. 1977A.** No.G31965420C. A double fold over at the bottom produced what looks like a long extra spike of white paper attached to the bottom of this striking example. A ghostly impression of the 'FIVE DOLLARS' under Lincoln's portrait is duplicated on the extra piece, along with some of the lower right denomination counter. **EF-AU.** **($150-300)**



1859 **The Last Four Digits Are Mismatched on This $5 1977A FRN. $5. FRN. 1977A.** No.H67346125A. The left serial number is H673**46125**A, while the right serial number is H673**45551**A.Single mismatched digits are seen from time to time, but a note with four mismatched digits is infinitely more difficult to acquire. There is a light stain at upper right. **VF-EF.** **($100-200)**



1860 **Missing Overprints on the Front. $5. FRN. 1977A.** No.G32816545C. A nice fold over error that resulted in missing overprints on the right side. The green seal, a district number, and a portion of the right serial numbers is on the back. **EF.** **($150-300)**

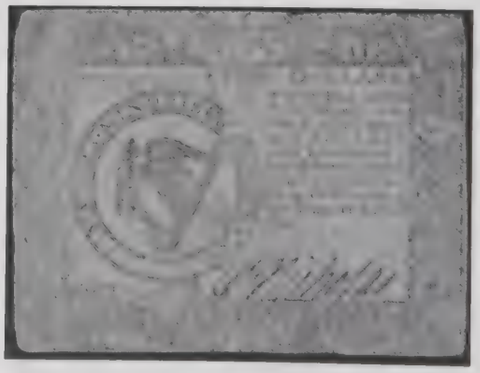
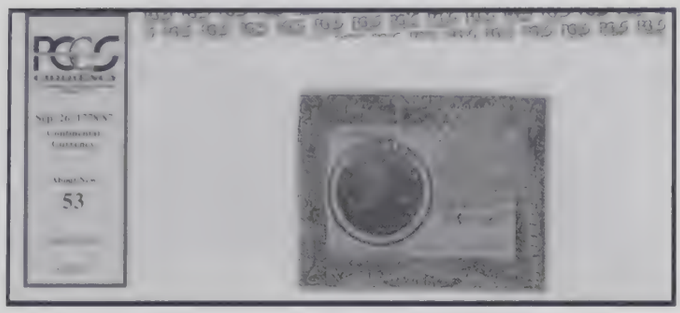
1900 **Continental Currency.** April 11, 1778. **$4/5.** No.63427. E. Ryves and James Ross. Rare "Yorktown" issue. The "Boar Charging a Spear" vignette is sharp and distinct. The red and brown signatures add color and nice eye appeal. One wide, and three very ample margins grace the sharply printed front, and the back margins are just as nice.

These genuine "Yorktown" notes were quickly recalled from circulation due to British counterfeiting, and many were burned. Surviving genuine notes of this quality are rarely encountered, and are always highly prized by collectors. **AU.** **($1,500-3,000)**

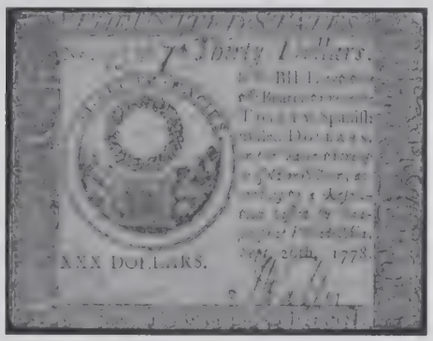


1901 **A Fine Example of the Scarce Yorktown Issue. Continental Currency.** April 11, 1778 Resolution. **$8.** Samuel Nicholas. **Fine,** trimmed close to all of the borders, but decent for the grade. All genuine Yorktown issues are scarce. **($400-600)**

1902 **Counterfeit Detector Note. Continental Currency.** September 26, 1778. **$5.** Hand is pricked by rose bush. Counterfeit Detector on thin blue paper. Used by bankers and customs officers, these notes were used to detect counterfeits that were put into circulation by the British, and by home-grown counterfeiters as well. **VF-EF,** small sliver missing from the top right border, and there are some very short edge splits. **($150-250)**



1903 **Continental Currency.** September 26, 1778. **$7.** No.158167. Thomas Nevell and L. Simmons. As deep and dark an impression as you will ever see of this rainstorm design. The serial number is deep red, and razor sharp, and the signatures are clear and bold. **About New 53 PCGS,** with three ample margins. Trimmed just into the left side, or it would have been graded much higher. **($300-450)**



1904 **Continental Currency.** September 26, 1778. **$30.** No.137070. D. Harvey and J. Watson. **AU,** but trimmed close to the border frames. A third signature appears on the back near the top. **($250-350)**

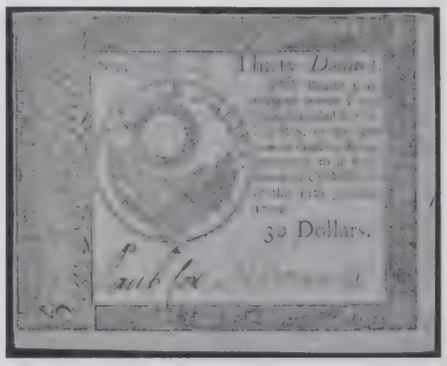
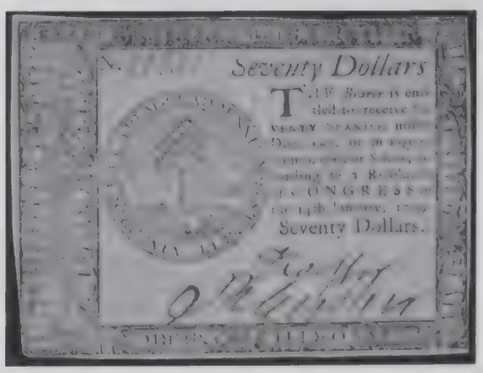
Excellent large margins, providing choice centering and overall appearance. Crisp paper. **Choice AU,** with just one light centerfold. **($300-500)**

1907 **Counterfeit Detector Note. Continental Currency.** September 26, 1778 Resolution. **$50.** One jumbo sheet margin at left, as this example was cut from the left side of a sheet. Some short, and well hidden small internal splits can be found near the top, but they are barely visible at first glance.

These specially issued "Detector" notes were printed on blue paper from the original, authentic plates. This was the earliest form of American counterfeit currency detection. **VF-EF.** **($250-500)**



1908 **Continental Currency.** January 14, 1779. **$30.** No.70984. Paul Cox and Nathaniel Donnell. This last issue of Continental Currency has several interesting features. The $30 through $65 issues are watermarked "CONFEDERATION" in two lines. The fronts are printed in red and black, and the borders now bear the motto "NORTH AMERICAN CURRENCY." **EF or so,** with a tiny edge split at the top. Two wide, and two clear but narrow margins. A very clean looking example. **($200-400)**



1909 **Continental Currency.** January 14, 1779. **$70.** No.81631. J. Masoner. This note is well printed, with vivid red and brown ink signatures and serial number that add to its eye appeal. There are no hard folds or creases on this $70 high denomination, which is scarcer than some of the other notes in this series. **EF,** with a few light bends. Trimmed just up to the lower left border frame. **($350-450)**

Notes from this series are mostly found with slash cancellations, but these are not cut. Instead, the comptroller, J. Porter, has written the word "Registered" in the blank space near the bottom on the back, and he has signed the notes as well. Surely worth a nice premium when signed instead of cut cancelled. **Uncirculated,** one with some light age toning, and the other two quite Choice. [3] **($450-900)**

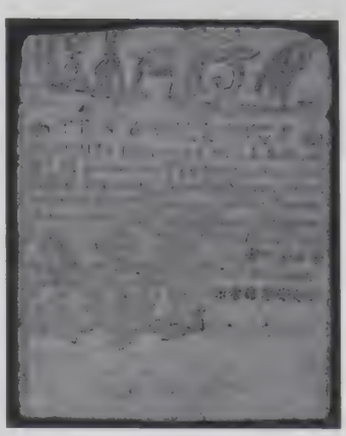
Delaware

Extremely Rare Archivally Restored 1739 Issue Printed by Benjamin Franklin



1920 **Delaware.** December 1, 1739. **10s.** No.1523. This exceedingly rare uniface Delaware issue was printed in 1739 by Benjamin Franklin. It has some deft archival repair primarily about the centerfold. Overall, it is whole and complete, with a pleasing appearance for the grade. Almost all of the text and designs are present, clear, and readable. The restoration work is mostly in the area of the central fold. The printed reverse vignettes include a Squirrel, Elephant, and Heron at top, with the British Royal Arms located at the lower left of the face. There are two partial signatures at the lower right. This note has a nice clear "1739" date. Any note from this very early Delaware issue is considered a great rarity, making this a truly outstanding opportunity for collectors of Colonial Delaware notes, Benjamin Franklin collectors, and anyone who appreciates early American printing history. Hard to estimate, as they rarely appear at auction. **($3,500-7,000)**

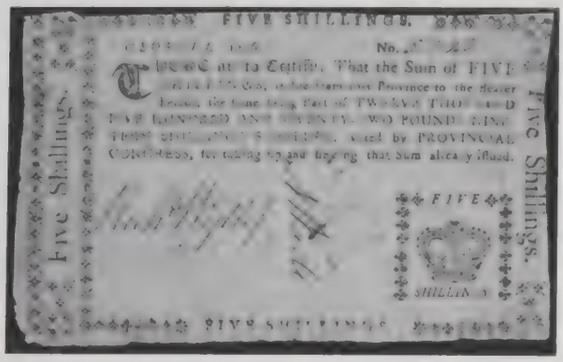
1923 **Delaware.** May 1, 1777. **6s.** No.6624. Jones, Robinson. Delaware Colonial arms. A mere 9,800 were issued. **EF,** with one center fold, and some age toning. **($100-200)**

Georgia



1924 **Georgia.** 1776 Sterling Denominations. **5s.** No.5325. Wylly and Wade. "Crown". A well printed Georgia Colonial note dated 1776, with a sharp "British Royal Crown" vignette at bottom right. All of the printed text is clear, and the border designs and the decoration are nearly complete (the upper left border has been repaired near the top). There are a few typical scattered period notations on the blank reverse. This "Crown" vignette is a much scarcer type than the "Horse" vignette. **F-VF,** minor roughness at extreme edges. **($750-1,500)**

Maryland

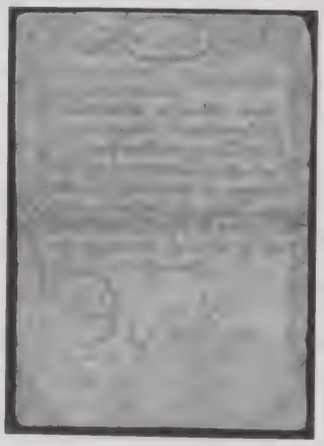
Massachusetts

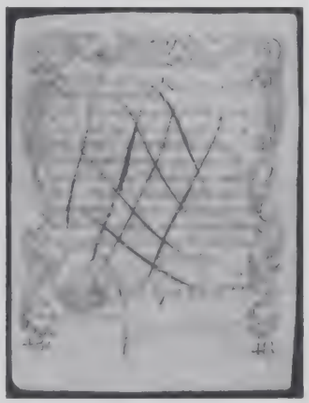


1933 **Massachusetts.** August 18, 1775. **2s.** No.4190. The famous Paul Revere engraved design shows a Massachusetts "Minuteman" holding his sword in his outstretched left hand, while holding a copy of the MAGNA CARTA in his right hand. The curved legend above the Minuteman reads: "Issued in defence of American Liberty". Signed by Ebenezer Sayer. The printed Treasury redemption due date is the 18th of August, 1779. Only 10,000 of this denomination were issued, and these were emitted with three different redemption dates. **VG or so,** repaired splits and edge restoration. Trimmed in to the front borders. Some light soiling. **($1,000-2,000)**

1775 'Sword in Hand' Note Engraved by Paul Revere

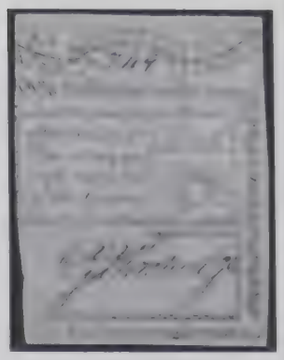
1934 **Massachusetts.** December 7, 1775. **3s 4d.** No.2846. Rice. 'Minuteman' holding his sword in his outstretched left hand, while holding a copy of the MAGNA CARTA in his right hand, designed by Paul Revere. The curved legend above the Minuteman reads: 'Issued in defence of American Liberty'. This attractive example is signed by 'Tho.(mas) Rice' in dark brown ink. The Treasury redemption due date of December 7, 1781, one of three dates used on this issue. As most of these notes were to be turned into the Treasury and destroyed, they are quite rare. This note is whole and complete, having clear details suggesting a grade of Very Fine. It has clear, fully readable text and a well printed Minuteman vignette. This rare note enjoys four full, even margins on its face and large reverse margins. **PMG-15 Choice Fine,** 'Split Repairs', with the overall appearance of Very Fine. **($3,500-4,500)**

Continental Counterfeit Sword in Hand

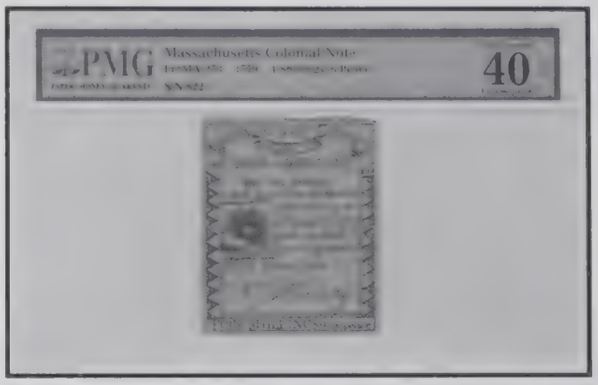


1935 **Massachusetts.** November 17, 1776. **48s.** No.1001. Goodwin. A contemporary counterfeit of a Paul Revere Engraved 'Sword in Hand' Issue, with 'Independance" on the scroll in the Minuteman's left hand. On the reverse the Colonial Minuteman is holding his sword and in this rare issue, he now holds a copy of the Declaration of 'Independance' in his other hand, as America had declared its independence from Boston on July 4th. Small endorsements by, "Moses Lewis" and "James Haywood - Falmouth, Ma." noted on the outer reverse edges.

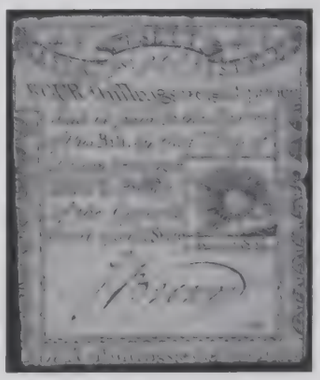
This extremely rare 1776 issue remains unpriced, in any grade, in Newman, and one may never have an opportunity to acquire an original note from this issue. The existence of these contemporary counterfeits bears mute testimony to the fact that the Revolutionary War was fought on several fronts. The British fired muskets and cannons, but they also waged economic warfare by manufacturing, and encouraging the use of counterfeits such as this rare example. **Choice VF-EF,** pen cancelled, with two endorsements on the back that indicate the note actually circulated until it was detected as a counterfeit. **($3,000-5,000)**



1936 **Massachusetts.** 1779. **4s 8d.** No.749. "Rising Sun." An historic Revolutionary War issue printed from copper plates engraved by Paul Revere. This note is crisp, well printed, and on fresh appearing paper. The Pine Tree on the nicely centered back has four wide margins. The face side is also well printed, though trimmed off-center and into the left side border design. The signature and serial number are a bold dark brown. **Crisp Uncirculated.** **($750-1,500)**

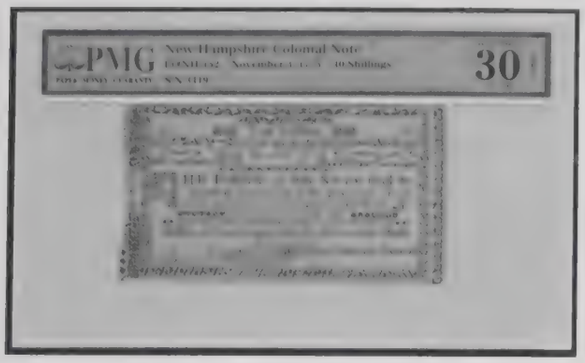


1937 **Massachusetts.** 1779. **4s 6d.** No.822. Partridge. This historic "Rising Sun" design, engraved by Paul Revere, is boldly printed on both sides. Two small edge repairs have been done with great skill, and the overall appearance of this pleasing example is very impressive. **PMG-40 EF,** "Split Repairs". There are four nice large even margins on both the face and back sides. **($500-1,000)**



1938 **Massachusetts.** 1779. **4s 8d.** No.2458. Brown. "Rising Sun" front design by Paul Revere. "Pine Tree" back printed by Thomas Fleet. 9,411 issued. **F-VF,** with a heavy horizontal centerfold. The front impression is razor sharp. **($300-600)**

New Hampshire



1939 **New Hampshire.** November 3, 1775. **40s.** No.3419. A bold black printed note having rich red and brown signatures and serial number. A listed counterfeit in Newman, most collectors now consider this variety to be simply part of a secondary print run, as it was done by the same printer, using the same press and typeface. The only difference is the location of a single period in the text. A scarce New Hampshire Revolutionary War issue, always in high collector demand, especially when not cancelled. **PMG-30 VF,** "Split Repair." A long, vertical center split has been skillfully closed, and is barely visible. **($600-900)**

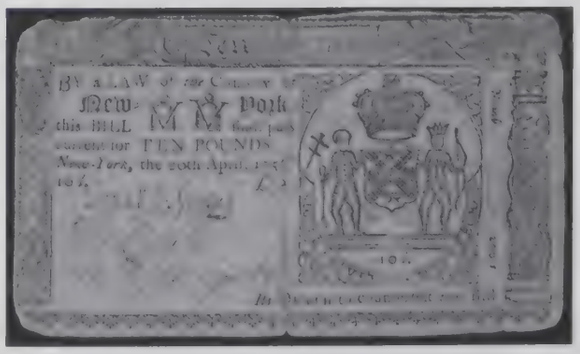
New York



1954 **New York.** April 20, 1756. The pre-1771 series on New York is not easy to find in any grade, with most notes bordering on "wretched" in quality, as evidenced by the 1993 Smythe Du-Pont Sale. This note came from the Boyd Collection, formed by Haseltine-Chapman-Boyd and more recently via the Ford X Sale. It is one of the finer notes we have seen on the Act. Sharply printed with a crisp backing. It is many times scarcer than any circulated New Jersey note from the same era. **F-VF,** with a typical center fold split that was reinforced long ago on the blank reverse. All four corners are rounded. **($500-750)**

The New York Arms vignette at the right side is very sharp and distinct. There is a short notation on the blank reverse, probably written in the mid 1800s, that states 'John Oakly Huntington Collection'. This is an exceedingly rare issue, missing from many of the more advanced New York Currency collections, and one of the finest surviving examples. **EF,** trivial expertly sealed edge splits and a small tear, right. Hole cancelled at the center. **($3,500-4,500)**

1961 **New York.** February 20, 1790. **2 d.**

"Corporation of the City of New York". Very scarce "City of New York" well centered on both its face and back. 1966 **North Carolina.** December 1771 Act. **£2.** "Bird with an Olive Branch". Nice clear vignette. A lovely example of this larger size,Two Pound denomination pre-Revolutionary War North Carolina issue. The paper is quite clean and fresh, the note is boldly printed, and there are four clear margins. All four full signatures are present. Typical period notations on the blank reverse side indicate active circulation. **PMG-20 Very Fine,** with "Split Repairs." This is one of the more exciting and impressive vignettes in the series, the second highest denomination, and only 2,500 were issued. **VF-EF,** with a few deftly repaired lower edge tears. **($600-900)**

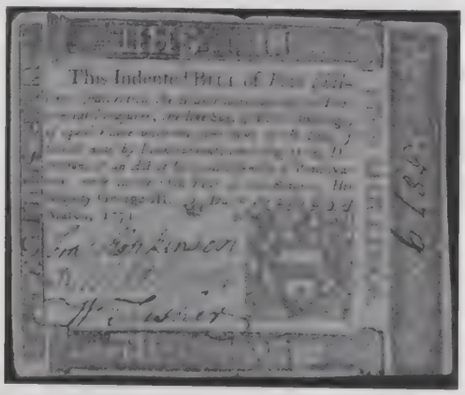
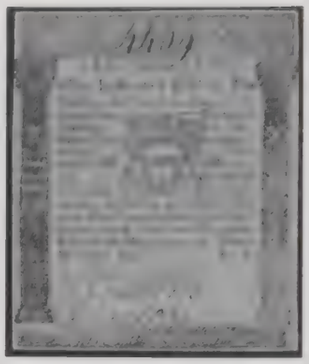
Pennsylvania

Signed By Francis Hopkinson, Signer of the Declaration of Independence



1970 **Pennsylvania.** March 20, 1771. **5s.** No.5879. A lovely note, boldly printed in red and black. The signatures are also rich red and brown, and crisply executed, especially that of Francis Hopkinson, Signer of the Declaration of Independence from Pennsylvania. Hopkinson is also credited with helping to design the American flag during the Revolutionary War. The black printed reverse is not as vibrant as the highly colorful face, and not well centered, as is the front. This is a great example of this scarcer denomination with the hard to find signature of Francis Hopkinson. B. **VF-EF,** with one moderate vertical center fold. Two tiny edge splits. Excellent color and paper quality. **($1,250-2,500)**



1971 **Pennsylvania.** March 20, 1771. **10s.** No.4409. Roberdeau, Morris, and Cox. Only 6,000 of these beautiful red and black notes were issued, and they are rarely seen this nice. Note the reversed "S" in "Shill" in the columns that form the side borders. A. **Choice Crisp EF.** **($400-600)**

The seal features an endless chain of thirteen links, plus one loose link protesting Vermont's exclusion as one of the original 13 Colonies, and the motto "VERMONT CALLS FOR JUSTICE". Only 126 or so Vermont notes of all denominations of this issue are known to us, and that includes fragmentary examples such as this one. Here is an important opportunity to acquire a note from the one Colony that continues to elude almost every collector. A piece is missing from the right side, but it only impacts on the right border frame, leaving all of the major text and other design elements visible. The pieces have the detail and crispness of a Very Fine example. **Fair to about Good,** split in half, horizontally at the center, and near the bottom border where a piece has been sewed back on. **($2,000-4,000)**

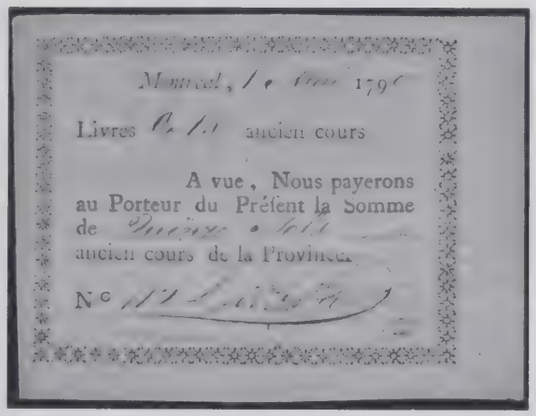
Rare 1790 Montreal 'Dobie - Badgley' Private Bank



1993 May 1, 1790. Montreal, Canada. **15 Livres (15 Sols).** "Dobie - Badgley" Private Bank Merchant Note. An exceedingly rare example in very Choice condition. This cataloguer recalls seeing a similar type example being offered in a Canadian numismatic auction, some time ago, which was estimated in excess of $2,000 back then, and it was only graded Extremely Fine, a dramatically lower level of quality.

In the original French: "Montreal, 1 Mai 1790, Livres 0.15 ancien cours. A vue, Nous payerons au Porteur du Present la Somme de Quinze sols ancien cours de la Provence. No. 112." Translated into English this means: "15 sols ancient currency. On sight, we will pay to bearer of the present sum of 15 sols ancient currency of the Province."

An exceptional rarity, with likely only a few notes known, and in magnificent quality. **Choice Uncirculated,** with just a hint of age toning throughout. Superb margins, and deep, original embossing. **($1,750-3,500)**

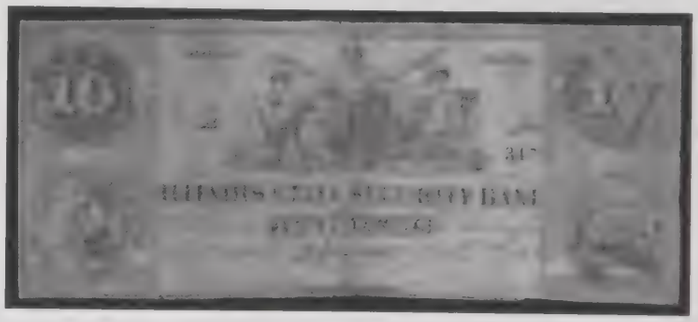
Opening in June 1859, this bank crashed along with most in the turmoil of 1861. Its portfolio of collateral security left noteholders with just 73 cents on the dollar. This issued $5 note was therefore worth $3.65 at the Auditor's office, but never found its way to redemption. A rare note. **Fine,** but a long fold split is backed with paper tape. Light stain near the center. Still quite presentable. **($150-250)**



2172 **IL.** *Equality.* Illinois State Security Bank. **$10.** (IL-250 G4a). Two young cherubs flank seated Liberty, top; oval male portrait, lower right. Bold red panels adorn this rarity from the pleasantly named village of Equality. The bank was open for less than two years, from June 1859 to spring 1861, its portfolio of bonds being ravaged despite having a fair proportion of Illinois stocks. This note, the Haxby Plate Note, was still good for $7.30 after the bank closed, which represented a respectable sum. Haxby indicates the bank issued only $5s and $10s, with only proofs known in $5s. This could be the only issued note known on the bank, and is very presentable as such. Full of history, rarity and style, which means it belongs in the best of Illinois collections. **About Fine,** but with numerous small splits near the center, backed with paper tape. **($100-200)**

This 'CERTIFICATE' is accepted for payments of any debts due to the bank, and for the purchase of property that the bank owns. Issued during the last year of the bank's operations. Rare, and we can't recall seeing another. **Fine,** two 3/4" circular cut out cancels. **($350-700)**

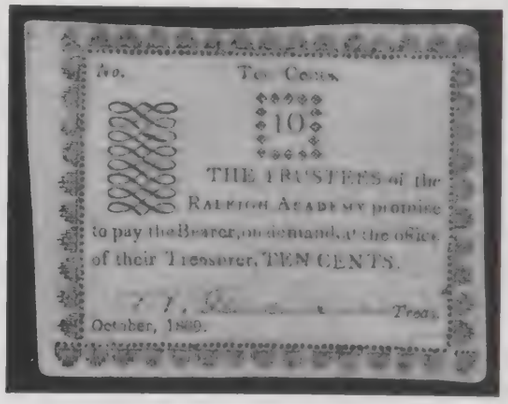
Important Early Raleigh Academy Note



2317 **NC.** *Raleigh.* Trustees of the Raleigh Academy. October 1809. **'Ten Cents' or 'One Shilling'.** Likely unique. 'One shilling' on the back. One of the most important North Carolina notes we have had the pleasure to offer. This could well be the finest known note from the entire series. The academy was created in 1801, but the building itself was not erected until 1804 for a cost of $1,150.00. The academy served the community for thirty some years and issued three series of notes. This is a great opportunity for the astute Southern Currency, Obsolete Currency and/or North Carolina specialist, who appreciates great rarity. (A lower quality example of a different denomination sold in the CAA Sazama Auction Sale, and brought in excess of $4,600.) Wisconsin

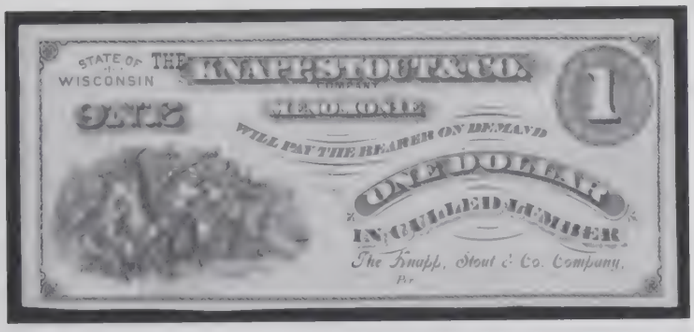
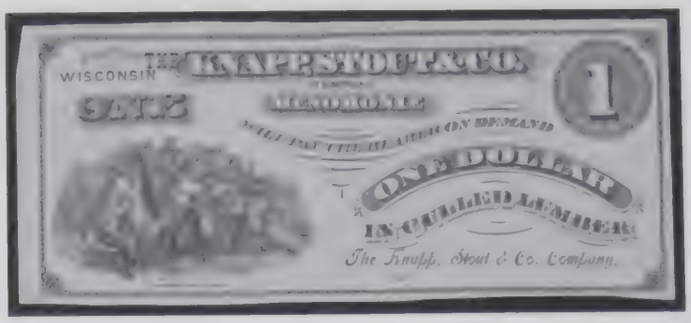
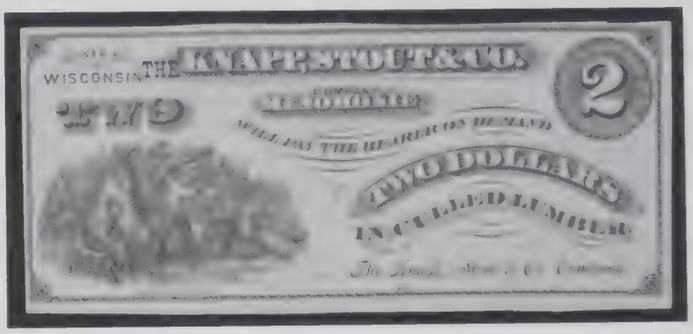
2446 **WI.** *Green Bay.* Bank of Wisconsin. **$5.** March 1, 1837. (WI-245 G8). Treaty of Prairie du Chien. Bank of Wisconsin Green Bay WI-245 G8 Established in 1835, this institution was effectively Wisconsin's first bank. The Panic of 1837 led to both its failure and dissolution and a general prohibition by the then Territory of Wisconsin which lasted from 1841 to 1853. RWHE. **Fine.** **($100-150)**



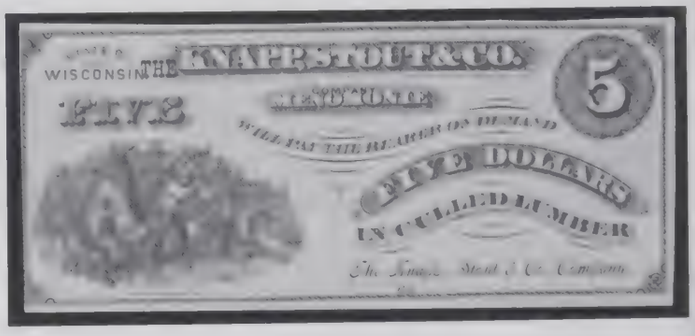
2447 **WI.** *Menomonie.* Knapp, Stout & Co. **$1.** (WI-337 SC7b). Woodsman cutting down tree, mill in distance. Knapp Stout & Co. Company Menomonie Scrip issues from this issuer are extensive, and show up from three Wisconsin lumbering regions, issued in Prairie Farm, Rice Lake, and Menomonie. In this cataloguer's opinion the higher denominations [$1, $2, and $5] are generally scarcer than the smaller denominations [5c, 10c, 25c and 50c], and the Prairie Farm and Menominee issues scarcer than Rice Lake by far. Sheet configuration varied amongst the three Knapp Stout Issuers, so it is hard to ascertain whether this splendid group started out on one sheet. What is unassailable is that this represents a rare opportunity to acquire the high denominations from this historic operation in high grade. Milwaukee Litho. **VF-EF.** **($400-800)**



2448 **WI.** *Menomonie.* Knapp, Stout & Co. **$1.** (WI-337 SC7b). Woodsman cutting down tree, mill in distance. Milwaukee Litho. **VF.** **($300-500)**



2449 **WI.** *Menomonie.* Knapp, Stout & Co. **$2.** (WI-337 SC8a). Woodsman cutting down tree, mill in distance. The deuce is probably rarer depending on the sheet layout. Milwaukee Litho. **VF-EF.** **($400-800)**



2450 **WI.** *Menomonie.* Knapp, Stout & Co. **$5.** (WI-337 SC10b). Woodsman cutting down tree, mill in distance. Knapp Stout & Co. Company Menomonie WI-337 SC10b Singles from this issue were printed three to a sheet. One five was printed for each duo of deuces, making this the likely to be the key to the series. Milwaukee Litho. **Uncirculated.** **($500-1,000)**

2451 **WI.** *Rice Lake, Barron Co.* Knapp, Stout & Co. **5¢.** (WI-714 SC1). Green back. Allegorical woman seated, leans on bale, ship in distance. Knapp Stout and Company 5c Rice Lake WI-714,SC1 Northernmost of the three Knapp Stout issuing locals, Rice Lake may likely have been the most successful of the enterprises, based on the frequency of appearance and evident circulation of its issues. This paper nickel has a small corner tip problem, not impacting the design. Western BN & Engraving. **Fine-VF.** **($100-150)**

2452 **WI.** *Rice Lake, Barron Co.* Knapp, Stout & Co. **10¢.** (WI-714 SC3). Green back. Stag. For small denominations of the time, the execution of these notes was of high quality. The elk vignette featured on this note is delightful and differs from similar subjects in the other Knapp Stout issues [25 cents of Menomonie and 25 cents of Prairie Farm]. **Uncirculated.** **($150-250)**

2453 **WI.** *Rice Lake, Barron Co.* Knapp, Stout & Co. **$1.** (WI-714 SC7). Green back. Man waters horse at trough, woman and second horse look on. As has been noted, larger denominations for all three of the Knapp Stout "company town issuers" are generally scarcer, and Rice Lake is no exception. This note and the two that follow offer the specialist the opportunity to acquire examples of all the known scrip issues for this issuer. Of the seven denominations, the ace is the rarest, listed as R-6 in Krause. Western B.N. & Engraving. **VF.** **($150-300)**

2454 **WI.** *Rice Lake, Barron Co.* Knapp, Stout & Co. **$2.** (WI-714; SC8). Green back. Train on bridge, cattle in foreground. A lovely unissued remainder; rated R-5 in Krause. Western B.N. & Engraving. **($250-350)**

2455 **WI.** *Rice Lake, Barron Co.* Knapp, Stout & Co. **$5.** (WI-714 SC10). Green back. Train, factory in background. Also rated R-5 in Krause, but is in the cataloguer's experience more difficult to encounter. This note is issued and has seen circulation, but is a bright and exceptional example for this issue. Western B.N. & Engraving. **VF.** **($150-300)**

Later that year he would organize Labor Exchange #1 in Kansas City, Missouri. Under the rules of the cooperative, members deposited products of their labor, such as food stuffs, clothing and shoes, in the exchange warehouse and in return they received labor certificates which equalled the wholesale value of the goods deposited. By 1899 prosperity was returning and the establishment of a gold standard in 1900 eliminated the need of the Exchange branches. The notes from Labor Exchange are widely collected and very scarce. The southerners, who hoped to break up Mexico and turn it into a slave holding territory, were eager to invest in this scheme. "Gold", the magic word, inspired nearly 100,000 "stampeders" to set out for the Klondike. About 30,000 completed the journey. Claims were being staked every day, as the prospectors were in a hurry to get their share. ($1,000-1,500)

By 1864 the owners of the fabulous Comstock Lode silver mines were at an impasse. The Ophir, the Gould and the Curry had yielded riches almost beyond belief, but the antiquated mining methods employed all but killed the golden goose. The shafts and tunnels were now deep in the heart of the mountain where the owners expected to find even greater treasures. Digging came to a halt when rising water levels overwhelmed the pumps, which simply could not push water back up to the surface. At this point Adolph Sutro came to the rescue. Adolph Sutro (1830-1898) was a Prussian Jew who came to America in 1850. Lured by the California Gold Rush, Sutro engaged in mercantile pursuits in the Stockton area. In 1860 he went to Nevada and set up a quartz-reducing mill. He conceived of the idea of driving a three-mile-long tunnel into the base of the mountain to drain and ventilate the mines from below. At first the idea was met with a great deal of skepticism, and local support was not forthcoming. Sutro turned to Europe, where mining methods were more advanced and financial backers more understanding. He secured enough funds to begin the project. In 1872, when this certificate was issued, the tunnel was still under construction. Six more years of Herculean labor was necessary to bring the project to completion. Sutro sold his interest, invested it in San Francisco real estate, and devoted the rest of his life to politics and philanthropy.

In 1864, Dr. Walter Brooke Roberts, a New York dentist, was offered the opportunity to buy stock in a Pennsylvania oil well which, upon inspection, turned out to be a complete fraud. Dr. Roberts returned from the Pennsylvania oil fields totally convinced that there was money to be made in oil, and he discussed the matter with his brother, Colonel E. A. L. Roberts. At this point Colonel Roberts told him of an invention he was working on, an explosive torpedo designed to restore the flow of wells that were no longer producing, and to increase the production of wells that were producing. The brothers immediately agreed to organize the Roberts Petroleum Torpedo Company. With six torpedoes ready for testing, Colonel Roberts headed for the oil fields of Pennsylvania and talked a dubious oil well owner into trying the new product. The torpedo consisted of a long metal cylinder filled with gunpowder and attached to a steel cable, and was carefully lowered into the well. When it reached the bottom a metal weight was dropped down the wire to set off the charge. There was a tremendous explosion and smoke, rocks and metal fragments flew out of the hole and rained down on the observers. Moments later a bucket on the end of a rope was dropped down the hole and hauled back up, full of oil! The test was an unqualified success. It was so successful that for the next twenty-five years the Roberts Brothers would spend a great deal of their time and energy fighting patent infringements and "moon-lighters" who produced their own unlicensed torpedoes.

The earliest known railroad bond. In the late 1820's and early 1830's the success of the Erie Canal created an atmosphere conducive to promoting and building more canals as well as railroads. While small railroads could be financed though the sale of shares to private investors, long railroads required the cooperation, and the financial backing of larger entities. The State of South Carolina was one of the first to realize the economic benefits that could be gained by aiding the construction of railroads, and the State loaned $100,000 to the fledgling South Carolina Canal & Railroad Company (chartered in 1827) to build a 136-mile road from Charleston to Hamburg, which was completed in 1833. It was then the longest line in America. In 1835, hoping to further improve the transportation of cotton from the Deep South Northward, a new railroad was chartered, the Louisville, Cincinnati & Charleston. In 1838, to encourage the expansion of the road to the state capital, Columbia, the State of South Carolina agreed to guarantee the issue of 200,000 Pounds of 5% Sterling Railroad Bonds for every $500,000 worth of shares sold. The bonds, due in 1866, were to be sold in Europe through the Agency of the Bank of the United States. These are the first known state guaranteed railroad bonds. Because of the steadily worsening condition of the Bank of the United States, a second group of bonds was issued through a different agency, of the House of Mess. Palmer, Mackillop, Dent & Co. of London. In his capacity as State Comptroller, **William E. Hayne** signed the back of each bond. His father, **Robert Young Hayne**, signed as president of the railroad. Robert Young Hayne (1791-1839) was U. S. Senator from South Carolina (1823-1832) and Governor of South Carolina (1832-1834). He was noted for his brilliant debate with Daniel Webster over the Nullification Doctrine in the Tariff Controversy of 1832.

As time went on the financial climate did not favor the cooperation of other states in expanding South Carolina's railroads. In 1844 the LCC became part of the South Carolina Railroad, which assumed the debt of the earlier company. The Confederate War prevented the South Carolina Rail Road from making interest payments, and in January of 1866 the bonds came due. Neither the State, nor the railroad could pay the principal. Instead, the bond holders were put off until 1871, and were asked to accept various oddly denominated Certificates of Indebtedness for any past due or future interest. In 1871 the South Carolina Rail Road issued 500,000 Pounds of new Sterling bonds, and exchanged them for the issues described above. The old bonds were cancelled and lay hidden for over a century until the recent discovery of a small group, said to have been brought in to the U.S. early in the last century from a European source.

John D. Rockefeller (1839-1937) was the dominant figure in the oil industry until his retirement in 1911. He started his business career as a bookkeeper and by age 19 was a partner in a produce business. He began operating a small refinery with his partners, and he quickly became alerted to the growing investment possibilities in what was then a fairly new industry. In 1870, he organized the Standard Oil Company of Ohio and proceeded to achieve control over 90% of the oil refineries in the country. Rockefeller had little interest in discovering oil; he left that to the wildcatters and other speculators. He concentrated on the transportation, distribution and sale of petroleum products, building a fortune estimated at over a billion dollars.

After being President of Mexico fives times, Santa Anna was ousted in 1855 and fled to the United States. By 1866 he was running out of money. The chaos in Mexico, with President Juarez and a French army backing the Emperor Maximillian locked in combat seemed to offer an opportunity for a comeback. Accordingly, Santa Anna had these bonds engraved, promising payment on the basis of real estate in Mexico that had been confiscated over then years before. The proceeds were less than expected and his agents stole much of the money which Santa Anna needed to buy guns and to hire soldiers. The Federal Government then got wind of his proposed expedition; the navy captured his ship and he was lodged in an American prison. Only after Juarez had reasserted his control over all of Mexico was Santa Anna released. Years later, when Santa Anna had gone blind and his death was clearly approaching, the Mexicans allowed him to return to Mexico. His only monument is one at Vera Cruz, where he lost a leg fighting the French.

Robert Morris (1734-1806) was an merchant, financier and Signer of the Declaration of Independence. He arranged for the financing and purchase of supplies for Washington's armies, served as superintendent of finance, founded and organized the Bank of North America, and was a delegate to the Constitutional Congress. Morris and his partners speculated heavily in Western lands, believing that aristocrats fleeing European revolutions would be willing buyers. This trend did not develop and Morris, despite his relationship with George Washington, ended up in Prune Street debtor's prison until he was released in 1802.

James Marshall was the brother of Chief Justice John Marshall. He served in Alexander Hamilton's regiment and served as commercial agent in France as agent of George Washington during the reign of Terror. He also negotiated the release of Lafayette from prison in Austria. The North American Land Company had an office at 230 Market Street in Philadelphia and the company speculated in lands in several eastern states.

The South Sea Company was founded to support the already existing East India Company in trade with overseas colonies. Shortly after the formation of the new company, speculators moved in on the shares and drove the price up to many times their normal value. Rumors of great discoveries of gold by the first ships underpinned the speculation which later became known as the "South Sea Bubble." The bursting of this bubble led to widespread distress, and a whole new structure of the English economy. The South Sea Bubble was the first great speculation in joint-stock company history.

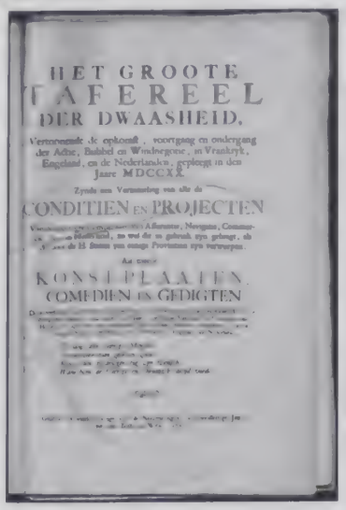
2714 Mosquito Land Grants 1868. #680. **500 Acres.** Green underprint. Signed by **Bedford Pim** as chairman. **VF.** **($200-400)**

Bedford Pim is best remembered for leading the daring sledge rescue of the crew of the *HMS Investigator* that was stuck in the Arctic. The "Kingdom" of Poyais arose from a complicated series of claims to the Atlantic coast of Central America. The Spanish claimed the whole area, but British timber cutters disputed this claim. In 1655, the British secured a treaty giving them a protectorate over the Mosquito Indians. The British recognized their Chief as a "king". This arrangement suited the Indians, who sought protection from Spanish rule. In 1820, a Scottish adventurer, Gregor MacGregor, provided military services to the "King," who gave away a large part of his realm. Anxious to make good his claims, MacGregor desperately tried to get people to settle in his unpopulated domain so that he could defend it. In the Clayton-Bulwar Treaty of 1850, Britain renounced its protectorate and the Poyais and Mosquito Kingdoms disappeared.



HET GROOTE
TAFEREEL
DER DWAASHEID,
CONDITIEN EN PROJECTEN
KONST PLAATEN
COMEDIEN EN GEDIGTEN

There are engravings of men trading worthless notes and other illustrations mocking the methods and hopes of the speculators. The book is divided into six parts detailing the various Bubble companies; satirical and didactic plays; various poems; descriptions of playing cards ridiculing the speculators; a series of letters denouncing the wind trade and of course the engravings. The speculations of the 18th century reveal types of economic behavior that were not often yet understood. Speculating was condemned in moral terms and investment was simply considered gambling. This book provides a superb insight for those investing or concerned with financial history. Paper cover is detached and some plates loose. Quite clean, rare and desirable.

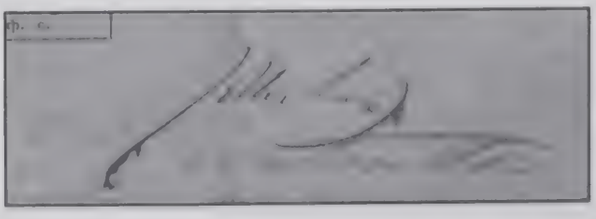
2715 Het Groote Tafereel Der Dwaasheid (Netherlands) 1720. *Amsterdam.* [Translation of the title] *The Great Mirror of Folly, Showing the Rise, Progress and Downfall of the Bubble in Stocks and Windy Speculation, Especially in France, England, and The Netherlands in the Year 1720.* **($5,000-10,000)**

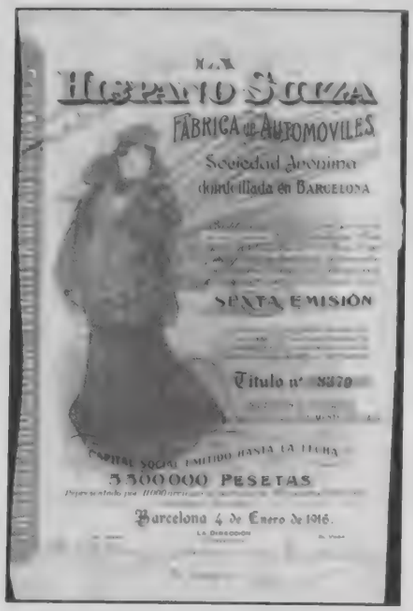
One of the great satirical books of the 18th century detailing the wild speculation and financial collapse of the period. Financial calamity in Great Britain was referred to as the South sea Bubble, in France the Mississippi Bubble and in the Netherlands the *Windhandel* or trading in a wind. Book contains 44 plates consisting of 50 engravings. Most engraving are quite large including some fold out engravings. The largest sheet is 20" x 16". The plates begin and their accompanying text begin with a portrait of John Law and follow the course of investment and speculation in ludicous and sometimes obscene images.

2716 Russian Loan of 1822 (Moscow) 1822. #33032. **720 Roubles.** 5% Loan. Double headed eagle. Embossed seal that reads "Russian Loan 1822 Contracted by N. M. Rothschild". Clear and strong signature of **Nathan Rothschild.** French and English translations on the reverse. Very fine condition for this bond. **VF.** **($250-500)**

These historic, early bonds are rarely offered in such nice condition.

Nathan Mayer Rothschild (1777-1836) was the third son of the founder of the house of Rothschild. He founded the British branch of the Rothschild banking house in London in 1805. He also played a leading role in managing and financing the subsidies that the British government transferred to its allies during the Napoleonic Wars.





2717 **La Hispano Suiza** (Spain) 1916. *Barcelona.* #8370. Sexta Emision. Red. Underprint of an automobile; woman in fur coat. Rubber stamped, **VF**. **($175-250)**

2718 **Real Compania de Commercio Establecida en Barcelona** 1758. Fancy certificate, with royal arms and those of Barcelona flanking the Virgin holding the Christ Child, flanked by a bishop, two saints and a priest. Underneath is the harbor at Barcelona, a fancy scroll with text and cupids with fruit and grape vines. **VF+**.* **($3,000-5,000)**

Another company chartered by Ferdinand VI to promote Spanish trade. Barcelona had long been a major commercial center in Aragon and in the trade of the Mediterranean. Its importance had declined with the loss of the Spanish territories in Southern Italy, and this company was chartered with a view to reversing that trend.

The Chicago Motor Vehicle company was headquartered in Chicago, and had its manufacturing facilities in Harvey, Illinois. The company claimed its production to be a hundred vehicles per week. Most of the production prior to 1900 was horse-drawn vehicles. By 1900 the focus of the company had turned to the production of commercial vehicles, including omnibuses and delivery cars, with the occasional custom automobile. The company failed in 1904. 5178 **William S. Pierson** (NY) 1846. Share certificate. Unissued. Black on blue paper. An extremely unusual piece of history. **EF.** *(np)* **($40-80)**
This was a classical scam, in an era marked by some ingenious examples of that art form. Abraham G. Thompson claimed to have a map marking the location where Captain Kidd had sunk a vessel containing his loot. Since Kidd did his looting in the Indian Ocean, and such money as he got (he was a notoriously incompetent pirate) was spent there, this was pure fiction that could only fool the ignorant. To give credit to this otherwise bald and unconvincing narrative, the site in the Hudson River near Dunderberg mountain was salted with some treasure pieces which the promoter claimed to have fished up. The scheme gave total discretion to the promoters as to how the funds were to be spent, thus giving the shareholders no recourse to recover their subscription. The chief purpose of this scheme was to pocket the down payment of $25 per share.

After about two years of prospecting Getchell turned to Bernard Baruch for financing. Production began in 1937 and the first bullion was poured in 1938. The company paid more than $3 million in dividends from 1939-44. During WWII it was the largest gold producer in Nevada. In 1961 the Getchell was taken over by Goldfield Consolidated. Today the Getchell is still one of the great mines of Nevada.

A postcard of the Bank Volunteers Corp having dinner is included. This is one of the famous 3% consols that existed from the 1750s all the way to the present, although all or some were refunded into a slightly lower rate security by Chancellor of Exchequer Goschen in the late 19th century. They are perpetuities, without a redemption/maturity date, a concept that never migrated from Europe, where it was common, to the United States. They promised only a stream of income, so it was easy to determine the yield by dividing the annual income stream by the current market price. In the '70s when the United Kingdom was having a lot of trouble, they got down to the teens in price, for some handsome double digit yields.

Hints For Bidding

By Fax or Mail

Bidding in auctions can sometimes be a real challenge, but bidding by mail presents its own set of issues. Many dealers and collectors are not able to appear at auction in person, yet want to participate in the bidding process. Experience has taught us ways to minimize frustrations, and maximize results for those bidding by mail, and we would like to share some of those ideas with you. Here are the questions we are asked most often, and some of the suggestions we have made to bidders submitting mail bids. We think they will save you time and money, as well as help you win lots you might otherwise miss.

"I can't come to your office to view lots, but I want to know more about a particular lot before I bid on it."

Lots are available to be viewed at the times and places posted in the front of the catalogue. We often bring lots to conventions, and there is no better way to learn about numismatics or scripophily than to attend a convention, view auction lots, and talk to dealers and collectors. But if you can't view items personally, here is how we can help you get a better idea of what you are bidding on:

1) Call us, and we will be happy to have one of our experts describe any lot you ask about.
2) We can arrange to copy most items and we will FAX or mail the copies to you at a nominal charge. We can also scan items and email images.
3) If you have established credit with us, we may be able to ship lots to you for direct viewing.

Please realize that requests for phone assistance, for copies or for shipping lots directly to you must be arranged well in advance of the closing date of the sale, and that a cost may be charged for these services.

"I have a limited budget and although there are many items I would like to bid on, I am afraid of exceeding my budget."

There is an easy way to solve this problem. It is called a "limit" bid sheet. Let's look at an example. Mr. Smith collects Confederate notes, and he sees that there are over thirty lots he would like to buy. His budget is $1,000, but the estimates on the thirty lots he likes add up to well over $5,000. If he bids on all thirty, he might win them all and exceed his budget. To be safe, he bids on only ten, and he wins only one lot for a $100. Mr. Smith is disappointed because he missed the chance to bid on all thirty lots. He could have bid safely on all thirty lots and increased his chances of improving his collection by submitting a "limit" bid sheet. Here is how it works:

Mr. Jones has the same collecting interests as Mr. Smith. He has the same $1,000 budget. Mr. Jones bids on all thirty lots he is interested in. He writes at the bottom of his bid sheet "Please limit my total winning bids to $1,000." Every time Mr. Jones wins a lot, we keep track of his total spending. When the total reaches $1,000, we will stop applying his bids. We did what he would have done had he been at a live auction. We spent only what he budgeted for.

"What if there are three similar lots, and I only want one?"

"#101 OR #102 OR #103 at $200" will work perfectly.

"I bid $30 on a lot that was estimated at $100, and I didn't get the lot. Later, when I got the Prices Realized, the lot was reported as unsold. Why didn't I get the lot?"

The Terms of Sale state that bids less than 60% of the estimate will not be accepted. As auctioneers, we have a responsibility to the consignors as well as the bidders. Any bid that is considered to be less than the "...regular market value..." of the item may be rejected by the auction house. Keep this in mind when making bids below the estimates given.

We hope these questions and answers have been helpful. If you have any comments, suggestions, or further questions concerning Smythe auctions, please feel free to call us at 800-622-1880, or 212-943-1880.
